

## PAPERS AND PACKAGING: RECYCLING BECOMES EASIER

Plastic in the blue bin and cardboard in the yellow bin, it's over! **100% of paper and packaging can now be sorted in the YELLOW bin.** Be careful, a toothbrush for example, is not a packaging!  
The green bin continues to be used for glass bottles and jars.

Since January 1st 2023, it is possible to deposit in a single **YELLOW** container, all paper and packaging without exception: metal, plastic, paper, cardboard, and food cardboard.  
The colors and sorting instructions are gradually being changed on the collection equipment.  
You can find them on [www.mon servicedechets.com](http://www.mon servicedechets.com) or on the practical guide available at the city hall.

**A logical, useful and simple sorting gesture!**

### TO SORT

#### ALL PAPERS AND ALL PACKAGING

## HOUSEHOLD WASTE COLLECTION

I take out my bin the day before the collect day

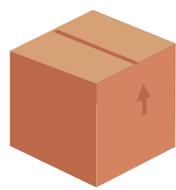

A bin that is too full or has bags next to it is counted twice at collect.

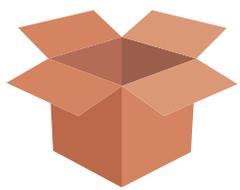

I do not leave bags, bulky items or cardboard boxes next to it; these are deposits liable to a fine and cleaning fees.

## YOUR ADMINISTRATIVE PROCEDURES

*I'm moving:* I'll report it promptly, giving proof of my move so that my account can be closed. I will receive the balance invoice at my new address.

*The bin and/or the two badges must be left in the apartment I am leaving.*

*I'm moving in:* I report it as soon as possible, even if I'm not moving to another town, in order to **open my account at my new address**, to check the equipment present (bin and/or badges) and to **make them active for the next collections.**
